

Being back at school

A pupil survey – 2020

Hello

Education is important. It's a big part of making the most of life's opportunities.

We are Estyn. We help to make sure schools and colleges are the best they can be. We check on all schools, including your school, to make sure you're getting the best education possible.

The Covid-19 pandemic has changed lots of things for all of us.

Covid-19 is a new virus. Everyone's still learning what it does and how it affects people. It means there are lots of new rules and changes.

It's changed how we shop, how we work and who can visit us at home. It's why places like swimming pools, libraries and schools were closed.

Now schools are open again. Some people are excited to be back but others aren't.

We want to know what you think about being back.

We want to check that school is a place where:

You feel safe.

Your teachers make sure you can talk about your feelings.

You know who to talk to if you're worried or upset.

You can play with others.

You can exercise at school.

You have help to settle into your new class.

You have help to learn and do schoolwork.

You have chances to learn outdoors.

Everyone follows the rules about washing hands.

You have help to learn the Welsh language.

Teachers help you work from home, if you need to.

Please let us know how you feel.
